

Über Bellecapital

Wieso mit uns investieren?

Xinyue Hou, CAIA
Portfolio Manager

Andreas Kringlen, CFA
Portfolio Manager

Unsere Portfoliomanager verfügen über langjährige Investmenterfahrung in Emerging Markets und halten beide einen Master in Banking and Finance von der Universität St. Gallen.

Ergänzt wird ihre Expertise durch regelmässige Asienreisen, ein weitreichendes lokales Netzwerk und unseren vietnamesischen Partner Endurance Capital.

Wieso in Vietnam investieren?

This document is for marketing purposes. Please read the current sales prospectus and the KID before entering in any transaction. The only basis for the purchase of a fund are the Key Information Document (KID), the current Sales Prospectus with the Management Regulations or the articles of incorporation, the most recently published and audited Annual Report and the most recently published unaudited Semi-Annual Report, which can be obtained free of charge in German language from IPConcept (Luxemburg) S.A. (société anonyme), 4, rue Thomas Edison L-1445, Strassen, Luxembourg (see also https://www.ipconcept.com/ipc/en/funds_overview.html). Risks can be found in the Sales Prospectus. The Sales Prospectus and the KIDs must be made available to the investor prior to purchase. The tax treatment depends on the individual circumstances of each investor. This marketing communication is for information purposes only and does not constitute an offer to buy or sell fund units. In particular, the recipient is advised to check the information with regard to its compatibility with his or her own personal circumstances, legal, regulatory, tax and other consequences, if necessary with the assistance of an advisor. Please refer to the current sales prospectus for information on opportunities and risks. No assurance can be given that the investment objectives will be achieved. This marketing communication is addressed exclusively to interested parties in the countries in which the aforementioned fund is authorised for public distribution.

The Fund was established under Luxembourg law and is authorised for distribution in Luxembourg, Germany, Liechtenstein and Switzerland. The Fund may not be publicly offered for sale in the United States of America ("USA") or for the benefit of US persons. The Management Company may decide to discontinue the arrangements it has made for the distribution of the units of its collective investment undertakings in accordance with Article 93a of Directive 2009/65/EC. Further information on investor rights in English <https://www.ipconcept.com/ipc/en/investor-information.html> and German language <https://www.ipconcept.com/ipc/de/anlegerinformation.html> can be found on the Management Company's website (www.ipconcept.com).

For investors in Switzerland: The representative is IPConcept (Schweiz) AG, Bellerivestrasse 36, P.O. Box, CH-8008 Zurich and the paying agent is DZ PRIVATBANK (Schweiz) AG, Bellerivestrasse 36, P.O. Box, CH-8008 Zurich. The Prospectus, the Key Investor Information Document and the Annual and Semi-Annual Reports may be obtained free of charge from the Representative in Switzerland. Past performance, simulations or forecasts are no reliable indicator of future performance. The gross performance according to the BVI method does not take into account the costs charged on the issue and redemption of units (issue and redemption premium) and fees incurred during the holding period (e.g. transaction costs). The investor may incur securities account costs and other costs (e.g. custody or safekeeping costs), which reduce the performance. It should be noted that the value of the acquired units may fluctuate due to fluctuations in the investments in the fund and the listing of the securities. The fund exhibits increased volatility due to the composition of its portfolio or the portfolio management techniques used, i.e. the unit price may be subject to considerable upward and downward fluctuations even within short periods of time. Furthermore, in the case of foreign currencies, the return may rise or fall as a result of currency fluctuations.
